

### Gateway Requirements

- 20 (twenty) completed New Medicine Service (NMS) claimed for between 1/4/21 – 5/1/22.
- A Written Patient Safety Report (including LASA learnings).
- A Risk Review including the risks of missing sepsis and red flags in OTC consultations and a new entry on minimising the risk of COVID-19 transmission.
- CPPE training and assessment for all registered pharmacy professionals on LASA errors, risk management and sepsis (\*these should have all been done for last year's PQS – if so you don't need to do again).

### Training

PSNC have produced a summary table of all the training requirement for which members of staff. This can be accessed [here](#)
