

NHS Flu Season 2017/18

It's vitally important to keep up the momentum as we work through this first month and on to the even busier month of October. All pharmacies will now be at around their peak volume... maintaining this is key to your success.

This week's key actions are:

1. Re-check through the [PSNC Flu main page](#) which has links to everything you need, paying particular attention to:
 - a. Ensuring the team are using and fully familiar with [PharmOutcomes](#), log on criteria and record keeping.
 - b. Are clear on the claims process for payment – this is **NOT** automatically done through PharmOutcomes. You must use the [NHS BSA claim form](#) and submit it with your FP34C at the end of each month.
2. Continue with your recruiting and booking.
3. Keep the energy high and celebrate each day's achievements!
4. Encourage and / or incentivise your team to achieve your target... focus and push for success.
5. Prompt best practice sharing - please feedback your successes to Claire & I using the addresses below and we will share out the top tips for all you all to benefit from.
