1 months supply

Compact (125mls)
Oral nutritional supplements (ONS)
For patients who do not have fluid restrictions
or any other clinical reason to remain on a
low volume ONS

To Altraplen Energy
More information to follow

Reduction in over the counter (OTC) prescribing

We are aiming to reduce OTC prescribing by mainly focusing on **Hayfever, Dry eye remedies** and **vitamins & minerals**. Most of these medicines are available Over the counter without the need of prescription and patient should be encouraged for Self-care.

If consultation is necessary, patients should be referred into **Pharmacy First**, where Community Pharmacist are able to support with their Minor ailments queries and support Self-care.
