

**REF PH312**

**To all Community Pharmacies in the Wessex area**

Dear Colleague,

It is now time to record and submit details of your participation in the “Stay Well This Winter” Campaign which commenced on 09 October 2017, to make this process easier we have created the return form on PharmOutcomes for the submission of this and future campaign returns. You will find the campaign return under the Services tab. PharmOutcomes will then submit your report to us on your behalf.

**Please complete the PharmOutcomes return for the “Stay Well This Winter” Campaign by Friday 09 February 2018 at the latest.**

The terms of service for community pharmacies require that pharmacies participate in up to 6 health promotion campaigns in each calendar year.

All pharmacies are asked to submit a return after each campaign confirming that the pharmacy has participated and noting the number of people who were given advice as part of the campaign. A template form is now available on PharmOutcomes. The purpose of the return is twofold:

1. To provide assurance that the pharmacy is complying with this element of essential services
2. To help demonstrate the value that community pharmacy adds in terms of the health promotion role.

We will advise you of the subject for the next Campaign in the near future.

Thank you for your support for the campaigns and continued co-operation, it is appreciated as always.

Kind regards

Tim Perriment,
