

Important announcement to all Pharmacists working in Community Pharmacy

Please see below the invite for the jointly organised meeting to introduce pharmacists to the new and updated PGD services that become active from April 2018.

This is a key meeting to attend that enables pharmacists to set themselves up and be ready to provide these services over the coming years.

It is important that we achieve a pharmacist representation at this meeting from each locality across the island (plus from those that provide a locum service) so that the services are widely and consistently available up to 7 days each week.

If you are not already booked in – please do so now by contacting caroline.allen@iow.nhs.uk to confirm your attendance.

Please note: Food will be provided on the evening
