Training Overview

The GPhC have announced **changes to how it regulates and inspects pharmacies**. The changes planned include **publishing reports** from pharmacy inspections for the first time, changes to inspection outcomes and a move to **unannounced inspections**. The GPhC plans to implement these changes as early as April 2019. **Is your pharmacy ready?**

Our mission at Perrigo is to make a difference to pharmacies and the health of their communities. With this mission in mind we aim to help **equip your whole pharmacy team to be prepared for a pharmacy inspection, no matter when an inspector decides to surprise your pharmacy.**

Learning Outcomes

- How the GPhC have changed their approach to inspections
- Developing an action plan for the whole pharmacy team
- Gathering evidence and showcasing the best of your pharmacy

BONUS RESOURCES – a valuable suite of resources and materials to make inspections stress free

BONUS CPD TRAINING – Looking at hay fever differently

As our training event is at the start of the hay fever season it is a perfect time to refresh and challenge your approach to managing hay fever. Why? Because the number of people affected by hay fever is rising and with prolonged exposure their symptoms are worsening.

In this short training session, we will explore the importance of acting early to defend against hay fever.

Additional information

We want to make your training as comfortable and enjoyable as possible and so we have provided an evening meal and drinks to welcome you. For those who have special dietary requirements or are fasting for Ramadan please make us aware and we will endeavor to meet your needs.

We pride ourselves on running **practical, fun** and entertaining **CPD** training events as we believe **fun makes learning stick**.

Perrigo Training: Inspect the uninspected
