

Dementia

Latest Pharmacy Online Course

Did you know that Dementia is NOT a normal part of ageing?

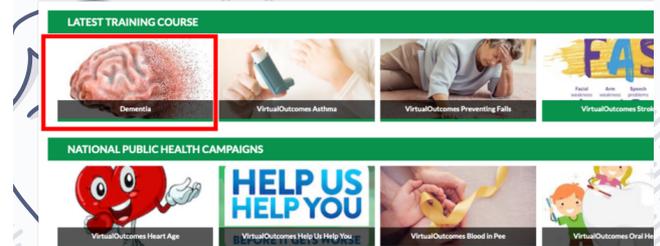

Dementia is an umbrella term used to describe a range of progressive neurological disorders which affect the brain.

Although no treatment can cure it, there are things people can do to lower their risk of the disease and approximately a third of all cases of dementia are thought to be influenced by factors within our control.

To find out how you can help, watch our **FREE** online training.
